# **SKILLS**

Python

Data Science

nltk, numpy, pandas, pytorch, scikit-learn, keras, matplotlib, seaborn, sklearn, pyspark.

Natural Language

Web Scraping(Python, Scrapy)

Swift5(iOS

SQL

Git

MongoDB, Express.js, Node.js, Django

Presentation Skills

Leadership

# Nipuna Chhabra

Computer Science Student

A quick learner who can wear different hats, looking to work in a challenging environment to learn and grow.

## **EDUCATION**

# **Bachelor of Technology**Manipal Institute of Technology, Karnataka

07/2019 - Present

 Software Engineering, Mathematics, Networking(C and Python), Data Structures(C), Big Data(Machine Learning and Management), Distributed Systems, Parallel
 Computing(Cuda,MPI), Data Architecture,
 Object Oriented Programming-Java

8 65

#### **EXPERIENCE**

PUBLICATION: "Something Something Hota Hai", - An Explainable Approach towards Sentiment Analysis on Indian Code-Mixed Data

- accepted at Workshop on Noisy User-generated Text (W-NUT), EMNLP 2021.
- discusses the implications model-agnostic explainable methods(Lime and Shap) for code-mixed data.
  Models compared SVM, Random Forest, CNN, CNN with Glove Embeddings, LSTM, LSTM with Glove Embeddings, XLMRoBERTa.

INTERNSHIP: Chatbot developer intern - GravitasAI (02/2022 - 06/2022)

developed a hospital chatbot on the AWS lexV2 Platform, using Python.

PROJECTS: Lumos - iOS App(Swift5) (11/2020 - 01/2021)

- Worked with UIKit, to deliver responsive UI with dark mode support; implemented secure user authentication and fetched data using a RESTful API backend.
- The app was designed programmatically, following MVC architecture for modularity and improved upon multiple times to get better compile-time efficiency.

The MIT Post - IOS App

Worked in a team of 3 to develop an app for The MIT POST, the official media body of MIT to share regular blog posts

OUI checker (11/2021 - 12/2021)

A tool written in C to extract MAC addresses of all machines(pc/mobile/router), in a network, & identify the OUI(Organizationally Unique Identifier) and cross check it with IEEE database.

## **ORGANIZATIONS**

#### Apple Developers Group - Vice President (06/2021 - Present)

Organised workshops and mentored over 30 students in getting started with iOS development. Oversee development and maintainance of different iOS applications.

#### Research Society Manipal (02/2021 - Present)

Work on Research Projects, Attend regular paper discussions, and workshops.

#### Volunteer Service Organisation (07/2019 - Present)

Collected food supplies and other necessities for Kerala flood victims, mentored kids in local slums, provided recreational activities for mental health asylum inhabitants.

# **CERTIFICATES**

Deep Learning Specialisation, Coursera (09/2020 - 10/2020)

Server-side Development with NodeJS, Express and MongoDB, Coursera (5/2022-6/2022)
